NOTE SUL PRODOTTO

PRODUCT NOTES

DECORI CON VETRO E GRANIGLIE - Le decorazioni mediante l'applicazione artigianale dei vetri e delle graniglie vetrose sulle piastrelle ceramiche possono presentare delle irregolarità nella distribuzione di dette graniglie, questo non pregiudica l'effetto estetico del prodotto ma anzi ne esalta le caratteristiche. Altra particolarità di questa applicazione è l'effetto craquelé.

DECORI CON ORO E LUSTRO - I decori realizzati con smalti contenenti percentuali di oro puro con il tempo possono perdere la loro brillantezza assumendo una colorazione tipica dell'oro antico. L'applicazione di pregiati lustri metallizzati donano alla piastrella diversi toni di colore dando al prodotto accentuati riflessi madreperlacei ed una maggiore incisività nei colori.

AVVERTENZE - Si raccomanda di prestare particolare attenzione sulle norme di pulizia da adottare sui materiali sopradescritti, evitare nel modo più assoluto sostanze abrasive, usare solo acqua o sapone neutro. Non attenendosi a queste norme la Ceramica declina ogni responsabilità in caso di contestazioni.

DECORI A MANO - Si precisa che le irregolarità di disegno e di stesura del colore e la diversità tra piastrella e piastrella nei decorati a mano, non sono da considerarsi difetti, ma anzi contraddistinguono il prodotto eseguito completamente con tecniche manuali.

DEKORE MIT GLAS UND GLASPERLEN - Dekorationen durch handwerkliche Aufbringung von Glas und Glasperlen aut Keramikfliesen können Unregelmäßigkeiten bei der Verteilung der Glasperlen aufweisen. Dies wirkt sich aber nicht nachteilig auf das Aussehen des Produkts aus, sondern unterstreicht seine Wirkung vorteilhaft. Eine andere Eigentümlichkeit dieses Dekorsist der Craquel-Effekt.

DEKORE MIT GOLD UND LÜSTER - Dekore, die mit Glasur realisiert werden, die reines Gold enthalten, können im Laufe der Zeit an Glanz einbüßen und das typische Aussehen antiken Goldes annehmen. - Die Aufbringung edler Metalluster verleihen der Fliese unterschiedliche Farbnuancen, die das Produkt perlmutterartig schillern lassen und die Wirkung der Farben verstärken.

HINWEIS - Bei den oben genannten Materialien sind die Reinigungsvorschriften besonders aufmerksam zu beachten. Auf keinen Fall Scheuermittel benutzen. Nur Wasser und neutrales Reinigungsmittel verwenden. Werden diese Hinweise nicht beachtet, haftet die Fliesen bei Beanstandungen nicht für die Produkte.

HANDEKORE - Unregelmäßige Zeichnungen und unterschiedliche Auftragung der Farbe, sowie ein unterschiedlicher Ausfall von Fliese zu Fliese sind typisch für handgemalte Dekore und dürfen daher nicht als Mängel betrachtet werden, sondern als Kennzeichen für Produkte dieser Art.

DECORS AU VERRE ET AUX GRENAILLES - Les décorations par application artisanale sur les carreaux céramique de verres et de grains vitreux peuvent présenter des irrégularités dues à une répartition irrégulière de ces grains; ceci ne compromet pas l'effet esthétique du produit mais au contraire exalte ses caractéristiques. L'effet craquelé ast une autre particularité de cette application.

DECORS A L'OR ET AU LUSTRE - Les décors réalisés avec des émaux contenant des pourcentages d'or pur peuvent perdre leur brillance avec le temps en prenant la coloration typique de l'or ancien. L'application de lustres métallisés de grande qualité permet d'obtenir plusieurs tonalités en donnant au produit des reflets nacrés prononcés et une plus grande vivacité aux couleurs.

RECOMMANDATIONS - Il est recommandé de suivre les prescriptions de nettoyage à adopter sur les matériaux décrits ci-dessus; éviter catégoriquement les sustances abrasives, utiliser seulement de l'eau et du savon neutre. Le non respect de ces prescriptions dégage la Ceramique de toute responsabilité en cas de contestation.

DECORS FAIT A LA MAIN - Les irrégularités de dessin et d'application de la couleur et la diversité entre les carreaux des décors fait à la main, ne sont pas considérées des défauts, mais au contraire une distinction du produit entièrement fabriqué avec des techniques manuelles.

DECORATIVE TILES WITH GLASS AND GRANULE SURFACE FINISHING - In decorative tiles with hand-applied pieces of glass and glass chips, since they are hand-crafted, the pieces of glass and chips will often be unevenly distributed. This, however, is by no means a defect but rather a natural highlighting of the intrinsic beauty of the effect. In fact, another natural effect of this application method is the "craquelé" (crazed) surface.

DECORATIVE TILES WITH GOLD AND IRIDESCENT PIECES - Decorative tiles whose glaze contains a percentage of pure gold, can in time lose some of their iridescent effect and the colour takes on the appearance of fine old gold. The application of fine metals in the glaze creates a kaleidoscope of colours like a delicate mother-of-pearl while highlighting the characteristics of the individual colours as lighting and conditions change.

IMPORTANT ! - Read and apply the instructions for cleaning these kinds of tiles. Never use abrasive cleaners. Use only water and neutral soap. The Ceramic declines any and all liability for damage or defects caused by failure to observe these cleaning instructions.

HAND-DECORATED TILE - Please note that any unevenness in the pattern or the colouring and any difference between one tile and another, often found in hand-decorated tiles, should not be regarded as defects. Far from it! They are essential features of hand-crafted material and thus the hallmark of a genuine product.

ОТДЕЛКА СТЕКЛОМ И СТЕКЛЯННОЙ КРОШКОЙ - Отделка керамических плиток посредством ручного нанесения стекла или стеклянной крошки может представлять неравномерности при распределении этих материалов, но это не снижает эстетический эффект продукции, а, наоборот, подчёркивает её характеристики. Другой особенностью данных нанесений является матированный эффект.

ОТДЕЛКА ЗОЛОТОМ И ГЛЯНЦЕМ - Отделка, выполненная эмалью, содержащей процент чистого золота, со временем может утратить блеск, приобретая типичный цвет античного золота. Отделка благородными металлизированными глянцами придаёт плитке различные оттенки цвета, придавая продукции яркие перламутровые отблески, а также большую определённость цветов.

ПРЕДУПРЕЖДЕНИЯ - Рекомендуется уделять особое внимание правилам очистки вышеописанных материалов. Категорически запрещается использование абразивных веществ. Применять только воду или нейтральное мыло. В случае несоблюдения данных правил претензии не принимаются.

РУЧНАЯ ОТДЕЛКА - Неравномерность рисунка и распределения цвета, а также разница между плитками ручной отделки, не являются дефектами, а наоборот, определяют продукцию, полностью выполненную ручной техникой.
