

MARMO D

Pensata per spazi moderni e raffinati, MARMO D a pavimento accosta al classico Crema Marfil e al brillante bianco Calacatta, entrambi già a catalogo, una serie di marmi dai nuovi colori pastello, come il Travertino bianco e il Travertino classico, ispirato alle nuance del beige chiaro, che riprende tutta l'eleganza delle pietre naturali utilizzate nell'antica Roma. Esclusivo anche l'inserimento del marmo giallo nilo, che con il fascino delle sue finiture e del suo colore si presta per ambienti dall'aspetto elegante, e della pietra Rosa Perlino, raffinata e signorile spesso accostata a decori in cui spicca il Rosso Verona.

A pavimento i formati sono proposti nella versione 50x50 cm e 50x100 cm nella superficie naturale, il 49,5x49,5 cm ed il 49,5x99 cm nella superficie lappata rettificata, mentre il 24,5x49,5 cm sarà indicato solo per il Calacatta e il crema Marfil. Un'ampia gamma di soluzioni e un'elevata flessibilità di utilizzo che permette di spaziare dall'edilizia residenziale al commerciale leggero, grazie anche ad un'elevata resistenza alle macchie e all'attacco di acidi.

Conceived for modern, sophisticated contexts, in addition to the classical Marmo Crema Marfil and bright white Marmo Calacatta, both already in the catalogue, MARMO D floor tiles are now available in a series of new pastel marble shades, such as Travertino Bianco and Travertino Classico, inspired by the tones of pale beige, which reproduces all the elegance of the natural stones used in ancient Rome. Marmo Giallo Nilo, ideal for elegant design schemes with its exquisite finishes and colour, and Pietra Rosa Perlino, sophisticated and aristocratic, often used in combination with decorative pieces featuring Rosso Verona, are further exclusive additions.

The floor tiles are available in 49.5x49.5 cm and 49.5x99 cm in versions with edge-ground surface, 49.5x49.5 cm and 49.5x99 cm in the edge-ground honed surface, and 24.5x49.5 cm for Marmo Calacatta and Marmo Crema Marfil only. A wide range of solutions and exceptional versatility in use, giving these products a field of application running from residential buildings to light commercial premises, thanks to their excellent resistance to stains and acids.
