

MARMO D wall

A rivestimento IMPRONTA CERAMICHE accosta l'inedita collezione MARMO D WALL nella stessa palette cromatica di pietre naturali (Calacatta, Crema Marfil, Travertino Bianco, Travertino Classico, Giallo Nilo e Rosa Perlino), che riproducono i lucenti contrasti del marmo pregiato, per un risultato complessivo altamente performante e assolutamente naturale.

Le piastrelle della nuova collezione MARMO D WALL, invece, presentano il formato 25x56 cm, nella superficie non rettificata, che prevede una serie di decori in linea con strutture a righe e con rilievi floreali; il 30,5x72,5 cm non rettificato, corredato da una gamma di decori che impreziosisce le pareti grazie a listelli, mosaici e texture floreali e a onda. MARMO D WALL, inoltre, può essere coordinato a pavimento con un formato speciale 30,5x30,5 cm rettificato.

For wall coverings, IMPRONTA CERAMICHE now adds the original MARMO D WALL collection, in the same natural stone colour shades (Marmo Calacatta, Marmo Crema Marfil, Travertino Bianco, Travertino Classico, Marmo Giallo Nilo and Rosa Perlino), which reproduce the gleaming contrasts of fine marble for an overall result that delivers high performance and an absolutely natural look.

The tiles in the new MARMO D WALL collection come in size 25x56 cm with non-edge ground surface, including a series of linear decorative tiles with ribbed textures and floral reliefs, and the non-edge ground size 30.5x72.5 cm, accompanied by a range of decorative pieces that ornament walls with strips, mosaics and floral and wave textures. MARMO D WALL can also be used with matching floor tiles with a special edge-ground 30.5x30.5 cm size.
